

ONE WATER SALINITY MANAGEMENT INNOVATION SUMMIT 2022

October 26, 2022 – 9:00 AM to 3:00 PM

Metropolitan Water District, 700 Alameda Street, Los Angeles, California, 90012
Room 2-456

Meeting Objectives:

1. Bring together in-person Southern California salinity leaders to consider the changing conditions and emerging trends impacting salinity management in the region.
2. Learn from colleagues within the Southern California water community about how salinity management innovation is critical to support our emerging One Water paradigm.
3. Develop content that informs and prioritizes future SCSC research and outreach actions.
